

## **Emmanuel Delfosse is the new Chief Executive Officer of GNA**

**Rio de Janeiro, September 6, 2023:** GNA - Gás Natural Açú hereby announces that Emmanuel Delfosse assumed the position of Chief Executive Officer of GNA on Monday, September 4th, replacing Guilherme Penteado, Director of Regulation, who had been temporarily fulfilling the duties of the CEO role at the company for the past four months.

With over 25 years of experience in the Energy sector, Emmanuel arrives with the mission to solidify the Gas and Energy Hub by overseeing the completion of the GNA II power plant, the expansion of the existing thermal power plant complex, and the connection of GNA to the gas network.

Graduate in Engineering from the Ecole Nationale Supérieure d'Ingénieurs Electriciens de Grenoble (ENSIEG) and the Institut National Polytechnique de Grenoble (INPG) in France, he joined the EDF Group in 1993 and had his first experience in the Brazilian market in 2004 in the company Light. Subsequently, he worked at ENGIE in both France and Brazil, returning to Brazil in 2016, where he played a significant role in regulatory affairs and business development in the gas market. This journey culminated in 2019 with the acquisition of TAG.
